Form 990, Part III, a - Statement of Program Service Accomplishments

The specific purposes of the Foundation are to foster investigations that will provide a better understanding of preventable anesthetic injuries, to encourage programs that will reduce the number of anesthetic injuries, and to promote national and international communication of information and ideas about the causes and prevention of anesthetic injuries. The APSF is made up of individuals and corporations involved in all aspects of anesthesia, and is a major source of grants for research. The Foundation's newsletter is published quarterly and is distributed without charge to anesthesiologists and nurse anesthetists and to thousands of hospital administrators and government officials in the U S and Canada. The APSF has also initiated and sponsored many other activities in fulfillment of its mission, including the supporting of meetings on anesthesia safety and the facilitating of the development of simulators for training of anesthesiologists in crisis management as well as other anesthesia management problems. A significant measure of the foundation's success is evidenced by the reduction in malpractice insurance premiums paid by anesthesiologists in several states during the past few years. These have been accompanied in some instances by a fall in award cost and a consequent reduction in risk relativity factors.
