SCIENCE FROM SCIENTISTS
STATEMENT OF PROGRAM SERVICES
20-0792574

In 2010, we ran the following programs:

1) The Exciting World of Science: (Program in progress since 2002) For this program, Science from Scientists has designed hands-on, activity-based modules in STEM (science, technology, engineering, and mathematics) to serve as teaching supplements. Modules incorporate national and state standards and have been designed to contain a lecture segment and a hands-on laboratory segment. We have developed modules in biology, chemistry, earth science, and physics on many topics the students would not yet typically see at school. Our staff members go into the schools during the school day - or in after-school programs in the case of some partnerships - and teach our modules to students in grades 4-8. The primary goal is to spark the students' interest in science, but because the modules are based on accepted standards, they also complement classroom curricula and help students prepare for the Massachusetts Comprehensive Assessment System (MCAS).

We provide the teaching staff and all of the materials. The schools pay nothing. To date, this is our most extensive program. We are working with hundreds of students from all around Massachusetts. We are currently teaching in numerous middle schools in Everett, MA, and in several schools in Revere, MA. We are also teaching in Brookline, Marblehead, Newton, Somerville, Cambridge, and Winchester, MA.

2) Science fair

Science from Scientists instructors are available to assist teachers and instruct students in grades 4-12 through the science fair process from start to finish. Students learn about the scientific method, experimental design, data analysis, and creating an attractive, informative and succinct display. We are able to offer schools aid throughout the entire science fair process by: administering a science fair, offering additional guidance as tutors, or serving as judges.
