Restrictions and Limitations on Awards

Organizations must be qualified under section 501(c)(3) of the IRC and have a non - private foundation determination letter from the IRS or be a government agency treated as such under Treasury Regulations. Organizations in metropolitan Chicago are considered, with emphasis on those from the city of Chicago. Currently, grantmaking focuses on the direct delivery of community based health services reaching vulnerable and underserved populations. No grants are awarded for capital, equipment, bench research or individuals. Grants awarded from restricted endowments are limited to the purpose established by the donor.

FYE 6-30-2010

The Foundation fulfills its mission to improve the health and health care of Chicago's most vulnerable populations through two major activities; grantmaking and convening. The Michael Reese Health Trust disburses grants through three grant programs: Responsive, Proactive and Community Response. The second activity, closely and purposely connected to all areas of our grantmaking, is Convening. This involves systematic information dissemination and educational activities to achieve the goals of enhancing networking and the effective use of resources and "best practice" information.

In addition to ongoing meetings with foundations, public health, medical, social service, and research colleagues, the foundation sponsored several events during the 2010 fiscal year. These included the following:

- 1) Two grantee breakfasts, which served to recognize recipients of grants awarded from the Responsive grant program and give them the opportunity to learn about the activities and services of other grantee recipients. In addition, recipients were able to attend an educational portion of these breakfasts whereby speakers gave presentations on issues pertinent to non-profit organizations.
- 2) Six Proactive grant project peer reviews, related to the topics of 1) addressing health related issues among Chicago's deaf community; 2) addressing unhealthy eating habits and obesity among children in Chicago's Jewish day schools; 3) improving the delivery and financing of preventive health and developmental services for children birth to age three; 4) improving birth outcomes in inner city urban communities; 5) building a continuum of services between Mt. Sinai and Access Community Health Care with a special focus on specialty care using colon cancer screening as the pilot project; and 6) supporting a consortium of five hospitals to build strategies to improve pediatric patient safety. The majority of these peer review meetings involved bringing in national experts to interact and share information with local stakeholders.
- 3) Four Health Care Issues Roundtable discussion groups, involving fourteen of Chicago's health care leaders. These discussions focus on current and innovative strategies and processes for improving health care quality and access.

Convening activities are also used for pre-planning of multi-year, multi-agency, Proactive grants.

Our website, www.healthtrust.net, is a mechanism for disseminating reports, papers and articles from supported projects and provides information about obtaining grants from the Health Trust.
