Air Pollution and Pregnancy. Program description - An outreach and education campaign to help inform the public and medical community on the dangers of exposure to air pollution during pregnancy. Implemented in late 2014 and will continue throughout 2015 through a series of lectures, presentations, and open houses

Description of program's objective - To inform and educate as many new and soon to-be-parents and the OB/GYN professional community within Utah on the high risks associated with exposure to certain types of air pollutants during invitro development as well as after birth, with the objectives of helping recipients to protect their babies and also become strong advocates for cleaner, healthier air quality. Two seminars have been conducted and recorded. Due to an online presence of programs, we estimate that we have reached approximately 1,000 to 2,000 people and we hope to reach approximately 10,000 people by the end of 2015.

Program description - Compiling and submitting expert comments to local, state and federal government agencies on a variety of proposed regulations, rules, and public processes designed to protect the environment and/or public health.

Description of program's objectives - UPHE seeks out specific proposed rules, regulations, or other public planning processes that will have an impact on Utah's environment or public health and that we believe will be of interest to our members. We will then compile and submit comments specific to such initiatives under the umbrella of protecting public health. We will also use those comments to craft summarized outreach information to our members and encourage them to also submit comments. The larger objective is to help our members be engaged in democratic processes in issues they care about. We participate in approximately 8-12 such public comment periods per year.
