Return Reference	Explanation
Part X FIN48 Footnote	While there is no unrelated business income for the current year and related income taxes, the term tax position as used in the FASB interpretation refers to a position in a previously filed tax return or a position expected to be taken in a future tax return that is reflected in measuring current or deferred income tax assets and liabilities for interim or annual periods. The term tax position also encompasses, but is not limited to, a decision not to file a tax return, an allocation or a shift of income between jurisdictions, the characterization of income or a decision to exclude reporting taxable income in a tax return, a decision to classify a transaction, entity, or other position in a tax return as tax-exempt. While this disclosure may not have immediate applicability to the Projects assets, it is required for full disclosure for any tax uncertainty that may arise from possible income tax transactions.
