Section C. Supplemental Information for Part V, Section B. Provide descriptions required for Part V, Section B, lines 2, 3j, 5, 6a, 6b, 7d, 11, 13b, 13h, 15e, 16j, 18e, 19e, 20a, 20b, 20c, 20d, 20e, 21c, 21d, 23, and 24. If applicable, provide separate descriptions for each hospital facility in a facility reporting group, designated by facility reporting group letter and hospital facility line number from Part V, Section A ("A, 1," "A, 4," "B, 2," "B, 3," etc.) and name of hospital facility.

PART V, SECTION B, LINE 5 GROUP A In conducting its 2019-2021 Community Health Needs Assessment-Community Service Plan (CHNA-CSP), Kaleida Health took into account input from persons who represent the broad interests of the community served by its hospitals located in Erie and Niagara counties, the primary service area. For each county, Kaleida Health participated in collaborative work groups led by the Erie County Department of Health and the Niagara County Department of Health and comprised of representatives from other hospitals, organizations, agencies, and schools; and included input from the community including the medically underserved. The Erie County work group launched their efforts on May 17, 2018 and held regular meetings throughout 2018-2019. County-wide assessment activities were conducted in 2019 including a consumer survey with 1,725 respondents to determine health status and community health needs, health behaviors, barriers to health, healthcare access and utilization, and demographic information. Input was received from the underserved with 16% of respondents having incomes of less than \$25,000 and 22% having incomes of \$25,000-\$50,000. There were several distribution sites targeting the low income and underserved. Kaleida Health posted the survey on the Kaleida Health public website, Kaleida Health employee website, and on Facebook and Twitter. Throughout March to May 2019, six focus group sessions were conducted to capture community input on the status of health and healthcare needs. Session locations targeted a geographic cross-section of sites, ages, and income levels. In February and March 2019, Kaleida Health collaborated with Catholic Health System and the Population Health Collaborative to host three community stakeholder sessions with professionals from health, mental health and social services organizations and obtained input on the communitys current health status, needs and issues. In addition to the review of data from the NYS Prevention Agenda Dashboard and other reliable sources, these activities helped to prioritize the health care needs of the county and the resulting implementation strategies; and are included in Kaleida Healths 2019-2021 CHNA-CSP and aligned with the Erie County Department of Health, Community Health Improvement Plan. The Niagara County work group launched their efforts on September 17, 2018 and held regular meetings throughout 2018-2019. County-wide assessment activities were conducted in 2019 including a consumer survey with 1,492 respondents to determine health status and community health needs, health behaviors, barriers to health, healthcare access and utilization, and demographic information. Input was received from the underserved with 11.11% of respondents having incomes of \$10,000-\$15,000, 9.01% having incomes of \$25,000-\$35,000, and 15.77% having incomes of \$35,000-\$50,000. Survey links were provided on the Niagara County Department of Healths website and Facebook page and shared with the partnering hospitals for additional electronic and print dissemination. In-person survey distribution was also conducted by various Niagara County public agencies and organizations. Kaleida Health and DeGraff Memorial Hospital posted the surveys on the Kaleida Health public website, Kaleida Health employee website, and on Facebook and Twitter. DeGraff also distributed paper copies throughout its facilities and at various community locations. Six focus group sessions were conducted in February-March 2019 at five Niagara County locations including hospitals, subsidized housing facilities and community/senior centers. The focus groups were facilitated by Eastern Niagara Hospital, DeGraff Memorial Hospital, Mount St. Marys Hospital and the Niagara County Department of Health. Additionally, a countywide key stakeholder meeting was convened on August 6, 2019 with representation from area health, mental health, and human service agencies. Information and data was shared from the consumer health surveys and community focus group sessions and each organization had an opportunity to share their experiences and provide input on county-wide health priorities. In addition to the review of data from the NYS Prevention Agenda Dashboard and other reliable sources, these activities helped to prioritize the health care needs of the county and the resulting implementation strategies included in Kaleida Healths CHNA-CSP and aligned with the Niagara County Department of Health, Community Health Improvement Plan. The Kaleida Health 2019-2021 CHNA-CSP was approved by the Kaleida Health Board of Directors on December 2, 2019. It is available to the public in the Community Health section of the Kaleida Health website at www.kaleidahealth.org and specifically at http://kaleidahealth.org/community/publications.asp. A paper version is available upon request at no charge at the hospitals. Written comments on the CHNA-CSP are invited from the public through a link entitled Comment on Plan located next to the document through the above link. This information is documented in the CHNA-CSP in the Dissemination to the Public section. No comments on the CHNA-CSP were received in 2019. NEW YORK STATE PREVENTION AGENDA. KALEIDA HEALTH INCLUDED THESE COLLABORATIVE PRIORITY AREAS IN ITS 2019-2021 CHNA-CSP. Health Care Needs Addressed in Kaleida Healths 2019-2021 CHNA-CSP: Chronic Disease Heart disease is the number one cause of death in Erie and Niagara counties accounting for 183.2 per 100,000 population of all deaths in Erie County and 232.4 per 100,000 in Niagara County (2019 County Health Rankings), and there is a high incidence of risk factors among residents including high blood pressure, diabetes, obesity and smoking. Heart disease further affects minority and underserved populations disproportionally. The mortality rate for diseases of the heart per 100,000 population (age-adjusted) for Erie County is 217.5 for Non Hispanic, African Americans, 174.5 for whites, and 135.2 for Hispanics; and in Niagara County, the mortality rates are 293.4 for Non-Hispanic, African Americans, 220.9 for whites, and 197.7 for Hispanics (2014-2016, Erie County and Niagara County Health Indicators by Race/Ethnicity, NYS Department of Health). In collaboration with the Erie County Department of Health and the Niagara County Department of Health work groups, Kaleida Health selected Prevent Chronic Disease as one of its NYS Prevention Agenda priorities. Kaleida Health hospitals identified the following community health activities to address chronic disease in its 2019-2021 CHNA-CSP: Erie County - Healthy Eating and Food Security Community Diabetes and Pre-Diabetes Nutrition Education and Mobile Food Market (Disparity low income population), Worksite Nutrition and Physical Activity Programs -Preventive Care and Management Cardiovascular Education and Screening Program in OB-GYN Centers (Disparity female, Medicaid population), Chronic Disease Education and Screening Programs for the Community, Health Literacy Task Force (collaborative county project) Niagara County - Healthy Eating and Food Security Health Education for Children, Little Free Pantry (Disparity food insecure population), Nutrition and Healthy Cooking Education - Preventive Care and Management Chronic Disease Education and Screening Programs for the Community In 2019, Kaleida Health hospitals provided the following: - 14 chronic disease education and screening events reaching an estimated 4,500 individuals including the underserved. - Chronic disease education through a physician-featured Medically Speaking Program resulting in a range of 193 to 781 social media views depending on the specific presentation. - Dietician-led nutrition education sessions focusing on chronic disease including diabetes and pre-diabetes were provided to the underserved at three community locations to increase skills and knowledge for healthy eating and decrease high rates of chronic disease among high-risk populations. - Three Nutrition Tune-Up Days were held providing Kaleida Health employees with one-on-one consults with a dietician focusing on healthy eating and wellness. - Cardiovascular education and screening targeting low-income women was provided in the clinical setting for patients of Kaleida Healths OB-GYN Centers where an estimated 81.5% (2018) of patient visits are reimbursed through Medicaid. In 2019, 366 clinic patients presenting for their annual gynecological appointment were screened for cardiovascular disease and provided education on the disease and its risk factors. A Little Free Pantry was set up at DeGraff Memorial Hospital to meet the communitys food security needs. - DeGraff clinicians/volunteers provided health education through a Teddy Bear Clinic held October 30, 2019 for 60 local school children ages 3-8 focusing on hand hygiene, triage, nutrition, and exercise. Mental and Substance Use Disorders Kaleida Health, in collaboration with the Erie County Department of Health and the Niagara County Department of Health identified the rising opioid addiction problem as a dire area of concern for their communities. The problem has been on the rise nationally and both counties have been significantly affected. In 2015 and 2016, opioid use increased dramatically in New York State (NYS) and the counties of Erie and Niagara were largely impacted. In 2016, the opioid burden (crude rate per 100,000 population) was 352.2 in Erie County and 416.5 in Niagara County, some of the highest rates in NYS. In addition to statistical data on opioid use, results from Erie County and Niagara County consumer surveys and focus group sessions indicated the need to address the problem. Kaleida Health identified the following community health activities in its 2019-2021 CHNA-CSP to address the opioid addiction problem: Erie County and Niagara County - Buffalo Matters Buprenorphine and Treatment Referral Program - Availability and Access and Linkage to Opioid Overdose Reversal Medications - Medication and Syringe Drop Boxes in Hospital Emergency Departments - Drug Take-Back Days In 2019, Kaleida Health hospitals provided the following: - 22 referrals to the newly launched Buffalo MATTERS program were made for patients in Kaleida Health emergency departments including Buffalo General Medical Center (six referrals), DeGraff Memorial Hospital (13 referrals), and Millard Fillmore Suburban Hospital (three referrals) to increase access to the Buprenorphine-based opiate use disorder treatment and to immediately refer patients to treatment. The online, real-time referral program provided directly in the emergency department connects patients with a network of 20 Western New York treatment agencies. - In 2019, 9 Nalaxone Kits were provided to patients/families in Kaleida Health emergency departments through the Kaleida Health Pharmacy In partnership with the Erie County Department of Health, Medication and Syringe Drop Boxes are provided at the emergency departments of Buffalo General Medical Center/Gates Vascular Institute, John R. Oishei Childrens Hospital, and Millard Fillmore Suburban Hospital in Erie County and DeGraff Memorial Hospital in Niagara County. Erie County and Niagara County Sheriffs Offices pick up and transport contents of drop boxes on a regular basis to Covanta Energy for incineration. - Two Prescription Drug Take Back Days were held in 2019 at Millard Fillmore Suburban Hospital in Erie County and two were held in 2019 at DeGraff Memorial Hospital in Niagara County. Maternal, Infant, and Child Health The health of women, infants, children and their families is fundamental to population health and is a priority area for the 2019-2024 NYS Prevention Agenda. Erie County and Niagara County both have high rates of infant and maternal mortality, premature birth, low birthweight babies, and teen pregnancy rates. These rates are affected by multiple disparities including race, poverty, and lack of access to quality prenatal care, as well as other social determinants of health such as obesity, smoking, substance use, and mental health disorders. Erie County and Niagara County infant mortality rates are significantly higher than NYS rates: - The infant mortality rate per 1,000 live births (<1 year) for Erie County is 7.3, and the rate for Niagara County is 6.8 while the NYS rate is 4.5. - The percentage of low birthweight births (<2.5 kg) is 8.6% in Erie County, 7.5% in Niagara County versus the NYS rate of 7.8%. Disparities exist among minority populations given that the percentage of low birthweight babies in Erie County is 7.0% among the white population and 13.7% among the African American/black population. - While the health benefits of breastfeeding are well documented and promoted among new mothers, there is more work to be done to increase rates throughout Erie and Niagara counties. The percentage of infants fed any breast milk in a delivery hospital is 75.2% in Erie County, 69.3% in Niagara County, much lower than the NYS rate of 87.3%. Kaleida Healths delivery hospitals of Oishei Childrens Hospital and Millard Fillmore Suburban Hospital are located in Erie County. Therefore, Kaleida Health selected Maternal, Infant, and Child Health as one of its NYS Prevention Agenda priorities for Erie County and identified the following community health activities to address in its 2019-2021 CHNA-CSP: Erie County - Maternal and Womens Health Centering Pregnancy Program (Disparity Medicaid population) - Perinatal and Infant Health Safe Sleep Initiative, Yomingo Online Parent Education - Breastfeeding Promotion and Education Program In 2019, Kaleida
