Return Reference	Explanation
II 9	NRC enters into deeds of conservation easements with landowners who grant the deeds to NRC. Conservation easements, either purchased or donated, are initially valued at their appraised value. The difference between the purchase price and appraised value is reflected as a contribution in the Statement of Activities. Once the development rights for a specific conservation easement are extinguished, generally immediately after acquisition, a valuation allowance is established to reduce the value of the conversation easement to 1. This value reflects the lack of marketability related to the easements. The reduction in value due to extinguishments of development rights is reflected as a program expense in the Statement of Activities and extinguished development value on conservation easements on the Statement of Functional Expenses.
