Schedule H, Part V, Section B, Line 11-GRADY MEMORIAL HOSPITAL	Grady's most recent CHNA was conducted in 2019 and our Implementation Strategy (IS) was adopted at the end of 2019. Listed below is an overview of our work in 2021, which addressed the CHNA priorities: 1. IMPROVE COORDINATION OF CARE FOR GRADY PATIENTS WITH DIABETES, HYPERTENSION, PROSTATE CANCER, HIV/AIDS AND BEHAVIORAL HEALTH CONDITIONS. Since launching in 2020, Grady's Trauma Recovery Center (TRC) has provided behavioral health counseling and wrap around services to more than 50 patients who are survivors of violent crime. Grady TRC provides trauma-informed clinical case management, psychotherapy, crisis intervention, medication management, and legal advocacy at no cost to survivors and secondary victims of physical			

medication management, and legal advocacy at no cost to survivors and secondary victims of physical assault, firearm violence, domestic violence, human trafficking, and sexual assault. In 2021, the TRC team moved into its own clinical space, hired additional providers, and collaborated with many Grady departments to train staff on how to identify and refer eligible patients. Grady's orthopedic surgeons are leading the way in developing a new position in health care to provide trauma-informed care and comprehensive pain management focused on physical and mental wellness. Life Care Specialists (LCS), a critical part of Grady's ortho-trauma team, are helping to prevent opioid dependence. LCSs attend patient appointments for up to a year to assess the need for resources and pain management strategies. Based on the individual patient needs, the LCS will provide a variety of support from education to referrals and care coordination to training on evidence-based nonpharmaceutical pain management techniques. Grady completed a pilot study in 2020 and began a randomized control trial with more than 200 patients in 2021. Grady's Ponce de Leon Center specializes in comprehensive care of patients with HIV. To better support African American women with HIV who have multiple comorbidities, have missed appointments, and are having difficulties sustaining viral suppression, Ponce launched the Black Women First Initiative. This two-part bundled intervention is comprised of patient navigation and self-efficacy. The program leverages a mobile app to foster increased patient engagement in the care plan and a Patient Navigator to support the patient. The Navigator orients the patient on the app, provides structured education sessions, interacts with patients through messaging on the app, helps schedule appointments, and acts as a liaison between the patient and the entire care team. The app also offers an opportunity for enrolled participants to interact and uplift each other and learn about resources for employment and housing support. By the end of 2021, Ponce had enrolled 43 patients. All were reporting a high level of medication adherence and reduced viral load, and 25 had achieved viral suppression. 2. INCREASE OPPORTUNITIES FOR ALL GEORGIANS, WITH A FOCUS ON PERSONS SERVED BY GRADY HEALTH SYSTEM, TO ACCESS HEALTHCARE. In 2021, Grady worked diligently to support the community and our patient population in understanding the benefits of obtaining the COVID-19 vaccine and improving access to the vaccine. Overall, Grady administered over 41,000 COVID-19 vaccines to patients and community members in 2021. Grady employed COVID-19 navigators to conduct outreach campaigns with patients and host community events. The navigators were able to connect with over 10,000 patients via text and phone calls to share information about vaccine availability, schedule appointments and transportation, and answer questions. Vaccines were also available in all clinics, in the Emergency Department and a temporary clinic built out in the hospital lobby. During this pandemic, MIH expanded its services to care for Grady patients, employees, and community members impacted by COVID. Through collaboration with Population Health and Strategy, MIH's impact extended into the community. Twenty onsite vaccine events were held at senior

The emergency use authorization of monoclonal antibody (MAB) in the outpatient setting created additional opportunity for MHI provide COVID-related treatment in the home for both Grady patients and employees. Close to 150 patients received MAB treatment in the home. Additionally, an mitiative launched in 2020 to contact seniors at high risk of COVID in grew substantially in 2021. Medical students from Emory University and Morehouse Schools of Medicine contacted 2,200 patients in 2021. They provided phone-based health and safety education, social support, and resource connection. With in-person services still limited in 2021, Grady's financial services and many of the benefits screening initiatives continued to be offered primarily via telephone support. In 2021, Grady completed Medicaid enrollment for an estimated 2,235 patients. Grady also continued referring patients to the Atlanta Community Food Bank and Wholesome Wave Georgia for assistance with SNAP enrollment. 3. INCREASE PATIENT AND COMMUNITY ENGGEMENT IN HEALTHY BEHAVIORS TO PREVENT DIABETES, HYPERTENSION, HIV, UNINTENTIONAL INJURIES, AND HOMICIDE. With Atlanta at the center of the HIV epidemic, Grady continues to provide critical access to HIV preexposure prophylaxis (PrEP) and sexual health services to prevent HIV. In 2021, Grady's PrEP program achieved notable growth and quality improvement leading to greater impact. Streamlined processes improved both medication refills and net margin. Updated and expanded web and social media marketing efforts contributed to volume growth. In 2021, the PrEP program was awarded the Emory at Grady Community Impact Award and received new grant funding from the Emory Medical Care Foundation. After many cancer screenings were delayed during the first year of the COVID pandemic, Grady providers on the

Grady also employed a Housing Support Navigator to help connect patients experiencing homelessness with various community resources based on the individual's needs. The navigator assists social workers with coordinated entry referrals through the City of Atlanta Continuum of Care's Homeless Management Information System (HMIS), a first for Grady, and a significant improvement in care coordination between the health and homelessness systems. Since 2020, Grady and the Atlanta-based Cardiff team are surveying hospitals and their community partners to assess readiness to implement Cardiff.
