Part VIII- Summary of Direct Charitable Activities

List the foundation's four largest direct charitable activities during the tax year. Include relevant statistical information such as the number of organizations and other beneficiaries served, conferences convened, research papers produced, etc.	Expenses
1 Philanthropy: The Foundation actively supports the philanthropic sector as well as organizations involved in the field of post-secondary education. Foundation executives and employees are active with philanthropic organizations in Indianapolis, where the Foundation is headquartered, and in the vicinity of the District of Columbia, where it has a satellite office. Foundation executives and staff members also serve on the boards of local, national and international charitable organizations. For example, the Foundation's president and CEO serves on the board of Ditchley Foundation in the United Kingdom, as past chairman and trustee emeritus of the Council on Foundations, and on the boards of ACT and the Central Indiana Corporate Partnership. Other Lumina staff serve on boards such as The Nellie Mae Foundation, Indy Chamber, The Arnolt Center For Investigative Journalism at Indiana University, and the Firefly Children and Family Alliance Foundation.	13,519,090
2 Research and Publications: The Foundation conducts substantial nonpartisan research and analyses on issues affecting post-secondary education and makes this research widely available at no charge. The Foundation released its benchmark report, "A Stronger Nation: Learning beyond high school builds American talent," as an online data visualization tool. This report, based on federal data, offers a compelling case for the need to dramatically increase the share of Americans with workforce certificates, college degrees, and other high-quality post-secondary credentials. The tool, which was widely shared through media pitching and social media outreach, offers state-by-state analyses of the education levels of each state's residents, highlighting the work that must be done to achieve educational attainment of 60 percent. The Foundation released two issues of Focus magazine, a publication which highlights significant issues facing post-secondary education.	4,560,578
3 Conferences and Convenings: The Foundation convenes post-secondary education leaders, policymakers, researchers, and others who are influential and actively involved in efforts to expand access to and success in post-secondary education, particularly among difficult-to-reach populations such as students of color, adults who delay their pursuit of education beyond high school, first-generation students, and students from low-income families. These convenings are focused on bringing together stakeholders around a range of topics with the objectives of learning, building, sharing, and acting. Topics covered range from overcoming barriers to post-secondary education to increasing rates of persistence and completion among students who enroll in college or other post-secondary programs.	2,146,963
4 Technical Assistance: The Foundation provides technical assistance based on nonpartisan research and analyses to stakeholders in the field of post-secondary education, as well as to policymakers who are tasked with developing policy options related to increasing attainment. Foundation executives and staff regularly provide technical advice and assistance about critical issues such as the state of access to education beyond high school, the range of programs that have been initiated to increase such access, and efforts to enhance the likelihood of student success. This includes providing briefings and testimony at the request of policymakers on matters within the Foundation's expertise. The Foundation uses nonpartisan research and analyses to provide background and educational information on a wide array of issues affecting post-secondary education.	1,345,593

Lumina Foundation does not have a formal letter of inquiry (LOI) policy. However, we do review unsolicited requests. Unsolicited requests are reviewed by the grants management team for alignment with the Foundation's current strategic priorities. If the request aligns with current work, it is referred to a program officer for further review. Requests considered viable are invited to submit concept papers for further consideration by Lumina Executive Team members. Formal invitations for full proposal may be advanced following initial evaluation.

c Any submission deadlines:

UNSOLICITED INQUIRIES RECEIVED BY THE END OF SEPTEMBER FOR THE YEAR 2022

d Any restrictions or limitations on awards, such as by geographical areas, charitable fields, kinds of institutions, or other factors:

Lumina carefully reviews every grant inquiry that meets foundation guidelines. Following the initial review, we will inform applicants within two months of receipt whether the inquiry fits our current priorities and resources. Due to limited resources, we cannot request proposals from all inquiries that meet our criteria. If we decide to request a full proposal, a Program Officer will contact the applicant to request additional information and to provide instructions on applying for a grant. An invitation to submit a proposal does not guarantee funding. Lumina carefully considers all solicited proposals; occasionally, we invite external experts to review proposals as well. We are diligent in our efforts to respond promptly to proposals. Assuming potential grantees' timely responses to requests for information, the entire review and approval process typically takes approximately six months.
