One Earth has three focus areas - Knowledge through Science, Opportunity through Action, and Inspiration through Storytelling - that work together to drive collective action for the Earth. The One Earth Climate Model is the most advanced energy decarbonization model that shows we can limit global average temperature rise to the critical threshold of 1.5C with currently available solutions. The One Earth Solutions Framework indexes the 75+ most effective solutions across three pillars of collective action-energy transition, nature conservation, and regenerative agriculture. One Earth's award-winning science and mapping tool, the Global Safety Net (GSN), provides a blueprint of the approximately 50% of the world's lands and oceans that must be protected and restored to solve the interconnected crises of biodiversity loss and climate change. In 2022, the science of the GSN became the basis of a global biodiversity agreement signed by 200 countries to protect 30% of the planet by 2030. As momentum builds around the 30x30 movement, more decision-makers are turning to the GSN mapping tool and its underlying science for clarity on prioritizing and implementing conservation efforts. One Earth's Global Navigator, an interactive map that allows users to explore the ecological diversity of life on our planet through our bioregions framework and discover projects that are implementing solutions in each region. Minding the Gaps: One Earth's Climate Finance Report showcases insights from the One Earth Solutions Finance Tracker, a powerful new tool, built in collaboration with Vibrant Data Labs, that brings clarity to the climate solutions landscape. For the first time, this tool will allow us to see how private funding flows across the One Earth Solutions Framework - which indexes 75+ of the most effective solution pathways across energy transition, nature conservation, and regenerative agriculture. These insights illustrate how to scale and deploy investment and philanthropic capital in a more strategic and coordinated manner that centers nature and equity, and can help drive greater collective impact in the coming decade.
