Program: Donation Processing Compliance and Grants Administration. Better Giving operates a nonprofit fundraising and financial infrastructure platform designed to make charitable giving more accessible secure and effective for organizations of all sizes. As our primary program service we receive charitable contributions directly from donors process these gifts across multiple payment types maintain donor intent and administer the full compliance and documentation required before issuing grants to the intended beneficiary nonprofits. This includes accepting and processing credit and debit cards ACH transfers employer-matched gifts and increasingly complex non-traditional assets such as cryptocurrency and publicly traded securities. Our program ensures donor contributions are received verified and distributed accurately enabling nonprofits to access funding efficiently and with reduced administrative overhead. We perform due diligence to confirm the charitable status and eligibility of recipient organizations maintain anti-fraud safeguards and manage settlement processes that would otherwise be costly or technically burdensome for many nonprofits-particularly small and mid-sized organizations lacking financial infrastructure or specialized expertise. Better Giving also automates tax receipts maintains donor records and provides unified reporting that simplifies financial reconciliation for both donors and recipient organizations. By centralizing these processes the program reduces inefficiencies eliminates the need for nonprofits to maintain multiple vendor relationships and lowers the risk of administrative errors or compliance gaps. A core component of this program is our ability to facilitate stock and crypto gifts which have historically been difficult or inaccessible for many nonprofits. We manage asset receipt liquidation valuation and grantmaking in accordance with IRS regulations ensuring that nonprofits can benefit from larger or tax-advantaged gifts without taking on the operational or legal burden of handling these assets themselves. As a nonprofit Better Giving offers these services free of platform fees making advanced fundraising infrastructure accessible to organizations regardless of budget or technical capacity. This model enables more charitable dollars to reach mission-driven work and levels the playing field for smaller organizations competing for donations in a digital environment. Through this program Better Giving supports a wide range of nonprofit missions by delivering grants to qualified charitable recipients around the world expanding access to funding and improving the sustainability and efficiency of nonprofit fundraising. Expenses reported here represent the grants distributed to beneficiary organizations as well as the operational administrative and technological infrastructure necessary to manage donation intake compliance and grantmaking activities.

Part VI, Line 11a	Distribute via shared permission link with time for review and feedback prior to filing include relevant backup details and accounting to validate inputs.
Part VI, Line 12c	Quarterly reviews and board meetings
Part VI, Line 15	Benchmarked comparable salaries using industry research discussed and documented internally
Part VI, Line 19	Yes upon request and through Candid Guidestar where we are Platinum Rated
Part VIII Line 1	Explanation: During 2024 Better Giving received grant funds from Seraphim Labs which had previously held funds as agent custodian for numerous individual donors impacted by the Terra blockchain collapse. As the owner of Seraphim Labs Chauncey St. John confirms that Seraphims grants to Better Giving represented aggregated donor funds from individuals intended for charitable regranteeing to the originally designated nonprofits. Better Giving treated these receipts as pass-through contributions from individual donors to support designated qualified nonprofits rather than a single donor establishing foundation-like support.
