| PART V, LINE 4: | ECS has adopted an investment policy for all investments to produce a predictable level of funds to meet the ECS' organizational objectives while achieving a maximum total return for the assets at a level consistent with prudent management. Under this policy, as approved by the Board, the assets are invested in a manner that is intended to produce returns that exceed the spending policy, while assuming a moderate level of investment risk. Actual returns may vary from the intended results. To satisfy its long-term rate of return objectives, ECS relies on a total return strategy in which investment returns are achieved through both capital appreciation and yield. ECS targets a diversified asset allocation that places greater emphasis on equity-based investments to achieve its long-term objectives within prudent risk constraints. investments to achieve its long-term objectives within prudent risk constraints. |
